

“Pride in Performance”

## **EAST WINDSOR REGIONAL SCHOOL DISTRICT**

**Michael Dzwonar**  
**Acting Superintendent**

On behalf of the East Windsor Regional School District Board of Education and the central administration, I wish everyone a peaceful and joyous holiday season. During this very hectic time of year, it is easy to lose sight of what really matters in life. I hope you will find some time for yourself to reflect on what is important to you and to enjoy time with your family and friends. As we begin the new year, may we continue to work together to meet the challenges that surely lie ahead.

I am grateful to have had the opportunity to lead the district as Acting Superintendent throughout the first half of the school year. In addition to working with the Board of Education and West Hudson Associates search consultants to assure that a high-quality superintendent was hired to lead the East Windsor Regional School District, there has been a lot of work completed with various committees on the important district goals identified during the summer of 2018.

As discussed with the Board of Education and administration during the summer planning meetings as well as staff during the opening convocation, it was a priority to continue to work steadily toward achieving our clearly identified district goals and priorities while we were simultaneously undergoing a search for new leadership. Numerous administrators, teachers, and board members worked on committees to provide input to assure that for each of the district goals a vision, strategy, action plan, and resources were developed. This work is providing the framework for the development of the 2019-20 budget.

I am confident that as we begin the next year and beyond, our students will benefit from the realization of these goals which will provide more opportunities to learn about early literacy, science, technology, engineering, mathematics, fine and performing arts as well as civics.

Please visit the link below to view a mid-year summary of the improvements that are being successfully implemented in the current year as well as the planning being done on the district core and focus goals that are laying a strong foundation for continued progress.
